

## NOTICE

**Re: Site Inspections – Residential and Commercial Construction**

Pursuant to Ordinance 2004-067, Sections 1307.07, 1307.12, and 1309.04 of the Codified Ordinances of the County of Summit, regarding site improvement plans, the Department of Building Standards shall provide supplementary field inspections as follows:

- Elevation of excavations; general soil conditions; erosion and sediment control measures
- General site conformance with approved plans including final grading; drainage measures (swales/channels, yard drains, downspout outlets, basins & outlets). [Final inspection]

Upon receiving construction permits, the owner/builder shall contact the Department of Building Standards to schedule these additional inspections. [Direct line: (330) 630-7304] The inspections are included in the Topographic Plan review fee presently in effect. [Note: Fees for re-inspections are charged at the current rates.]

This action takes effect October 12, 2004. If you have any questions, or require clarification on the above items, please call our engineer, Mr. Joseph Schiavone, at (330) 630-7287. Thank you for your cooperation in this matter.
